Capability Statement

COMPANY OVER VIEW

Text2Them (Text Them Inc.) was established in 2008 with the goal of providing text messaging (SMS) solutions to the growing need to effectively and efficiently communicate.

COMPANY CAPABILITIES

With a telephone you can call someone, receive a recorded message and often have the option of pressing a number to be transferred to a live person. This is exactly how Text2them text messaging system works. The only difference is that this is computer to cell text messaging, not a phone call, email or instant messaging, so it gets to your targeted destination more effectively! No longer is texting only between cell phones. Now you can send and receive text messages from the convenience of your desktop computer.
